

JOB ANNOUNCEMENTS

Nationally recognized green building consulting firm seeks environmentally motivated individuals to join our team. We are a small, growing company who helps our clients to design and build more environmentally benign commercial and residential projects. A major focus of our efforts includes the implementation of the LEED Green Building Rating System on more than 50 projects throughout the country.

LEED Project Manager

Organized, self-starting individual needed to oversee LEED documentation activities, general office functions, and project management. Experience with LEED and the design and construction process a major plus. Duties may include: Managing LEED documentation for client projects, LEED project reviews for the USGBC, office management, and general project organization/management. Positive attributes include: Strong organizational abilities; excellent writing, computer, and research skills a must; ability to manage multiple projects; flexibility; and a sincere interest in promoting energy efficiency, renewable energy, and environmentally benign solutions.

Energy Engineer

Engineer sought for projects focusing on energy efficient, sustainable, and green buildings. Excellent opportunity for mechanical engineer with 5 to 15 years commercial (medium to large projects) mechanical design or analysis experience. Experience with energy modeling software, particularly DOE2, a major plus. Duties may include: energy modeling and analysis, energy surveys, measurement & verification projects, renewable energy system analysis, preparation and review of LEED documentation materials, daylighting analysis review, and overall project management. Positive attributes include: Open-mindedness; flexibility; strong desire to challenge conventional thinking; ability to manage multiple projects; good writing and communication skills; and a sincere interest in promoting energy efficiency, renewable energy, and environmentally benign solutions.

Salary and benefits negotiable and commensurate with experience. Flexible work schedule in a casual work environment.
